CIT Skills for Carers: What it's all about?

CIT Skills for Carers has been successfully providing flexible training for family carers in the ACT since 1995. By carers, we mean family and friends of a frail older person or a person living with a disability, chronic illness, or mental health issues. These are people involved in an unpaid capacity in the many aspects of supporting someone to live as independently as possible. Training is available through short courses, workshops or on an individual basis. There are no fees for this training.

CIT Skills for Carers is managed by the CIT Fit & Well Team, within the CIT Health, Community and Science College. Funds for this training come from ACT Health Directorate. All trainers with CIT Skills for Carers have professional qualifications in a health-related field, experience in working with families and empathy, if not personal experience, with family carers. Through annual planning, review, and networking with community services, carer training is planned. Feedback and input from carers and community services are always welcomed.
